

EMBAJADA DE LOS EMIRATOS ÁRABES UNIDOS LIMA UAE-PE- No. 119/2022

سفارة الإمارات العربية المتحدة ليمّا

13:00

La Embajada de los Emiratos Árabes Unidos saluda muy atentamente a la Honorable Universidad Nacional de Ingeniería, en ocasión de informar que el Gobierno de los Emiratos Árabes Unidos en el marco de la Cumbre Mundial de Gobiernos, que se llevará a cabo del 13 al 15 de febrero de 2023 en los EAU, entregará el Premio Global a las Mejores Aplicaciones Gubernamentales para los estudiantes de universidades públicas y privadas de todo el mundo.

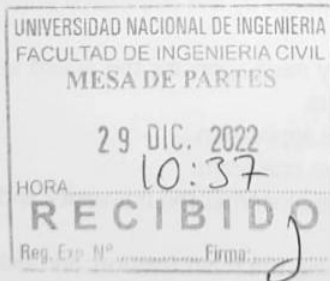

Dicho premio tiene como objetivo reconocer las soluciones que adoptan enfoques y técnicas novedosas que aprovechan de manera eficiente la tecnología para resolver problemas que afectan a un gran segmento de la población y brindan beneficios tangibles con la capacidad de expandirse geográficamente a través de las fronteras.

Sobre el particular, se tiene a bien invitar a esta Honorable Universidad a inscribir a los estudiantes interesados para participar en dicho premio a través del siguiente link:

<https://mgovaward.worldgovernmentsummit.org>

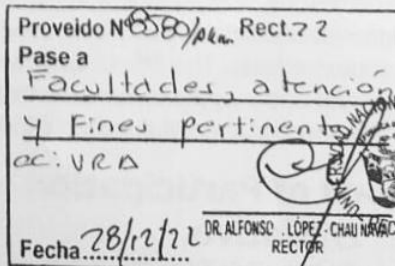

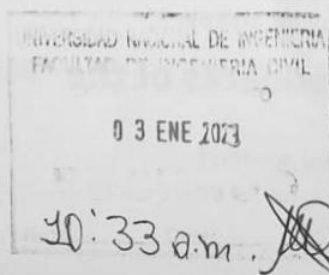

Asimismo, se adjunta información complementaria sobre el premio y las condiciones de participación.

La Embajada de los Emiratos Árabes Unidos, agradece de antemano a la Honorable Universidad Nacional de Ingeniería, la atención brindada a la presente, y aprovecha esta oportunidad para reiterarle el testimonio de su más alta y distinguida consideración.

Lima, 19 de diciembre de 2022

A la Honorable Universidad Nacional de Ingeniería Ciudad. -

The Global Best M-Gov Award

The "M-Gov Award" and the "GovTech Award" are annual awards organized by the UAE government as part of the World Government Summit. These awards are designed to encourage pioneering students, researchers, government agencies & institutions, private sector companies and startups to develop innovative solutions using the latest technologies in order to address evolving local and global challenges and explore new opportunities for a better future for humanity.

In its eighth edition, "The Global Best M-Gov Award" is presented to students and researchers worldwide enrolled and registered in public and private universities, as well as graduates of the "One Million Arab Coders" Program, in order to highlight the pioneering role of universities and creative and innovative youth in addressing local and global challenges. The award aims to recognize solutions that adopt novel approaches and techniques efficiently leveraging technology to solve problems affecting a large segment of the population and provide tangible benefits with the ability to expand geographically across borders.

The award is open for students, researchers and graduates of the "One Million Arab Coders" Program to submit their projects as long as the application complies with the nature of the award and the stipulated terms and conditions. Three winners will be honored in the current edition of the award.

An independent jury team evaluates the submissions to determine the winners. The winners will be announced during the World Government Summit in Dubai from 13 to 15 February 2023. The submission closes on the 10th of January 2023 at 20:00 GMT.

Conditions for Participation – University Students

1. Only students enrolled in public and private universities can apply.
2. The university must be accredited and recognized by the authorized entities in their respective countries.
3. Students cannot participate individually; they must apply for the award as a team that consists of a minimum of two and maximum six individuals.
4. Students can participate with more than one application.
5. The University can participate with more than one team.
6. Mobile applications and solutions must be developed at the university and by the students themselves.
7. All submissions must include a video explaining the main features and benefits of the application.
8. All submissions must include a working or simulated working package on one of the official software development tools. The official software development toolkit in the following links:
